

## Mr. WHISTON'S

## CHRONOLOGICAL TABLES,

From *A. M.* 0, to *A. M.* 2744, or from *A.* 4484, to *A.* 1500, when the TABLES themselves begin.

## P R E F A C E.

**N. B.** THESE *Chronological Tables* contain, in distinct Columns, at large, in XXX Centuries, or 3000 Years, an *Epitome of the Chronological Indexes to my Old and New Testament*, and of the *four Monarchies*, which are chiefly referred to therein, which Times are here *ascertained* to a single Year, during 3000 Years; and (including the Preface and Appendix) during the entire 6000 Years, from the *Creation* to the *Milennium*, having the principal *Eras* set parallel to each other; with the *Remarkable Events* all along.

**N. B.** It is here supposed, that the *A. M.* or Years from the *Creation*, begin in Autumn: The Years from the *Flood* later in Autumn: The Years from *Abraham's Departure out of Haran*, with those from the *Exodus out of Egypt*, in the Spring: The Years from the *Birth of Esau and Jacob*, after the Summer Solstice: The *Sabbatick Years*, and Years of *Jubilee*, in Autumn: The Years from the *Destruction of Jerusalem* after the Summer Solstice: The *Olympiads* at the Full Moon after the Summer Solstice: *Nabonassar's Era* began at first on February 26; as did the *Mohammedan Era*, or *Hegira*, on July 16; but both afterward ran backward, and began uncertainly: The first Days of which Years in *Nabonassar's Era* are here noted all along, as differing but one Day in four Years: But this could not be done in the *Hegira*, which differs near eleven Days in every Year, and in 32 Years, an entire Year; tho' in *Calvisius's* larger *Chronicon*, every Year has the Day of the *Julian Year*, when each *Hegira* began, distinctly set down. But as to the *Julian Period*, with the Years before and after the *Christian Era*, as well as those of the *Urbs Condita*, or *Building of Rome*, they all begin with the *Julian Year* the first of January.

**N. B.** The Scale I all along make Use of in the Tables, is a Foot to a Century, or 100 *Julian Years*; and so a *Centesimal* of a Foot to a single Year.

2704	The Exodus out of Egypt.
2743	Mofes dies, and Joſhua ſucceeds.
2744	Joſhua takes Jericho.

N. B. If any Deſire to know the very Year of any of the Æra's here mentioned, which is not ſet down before, or after the 3000 Years, they need only to take Notice of the *A. M.* before, or of *A. D.* after them, and add or ſubtract even Hundreds during the 3000 Years, and reſtore them again, and they will have the diſtinct Numbers thereto belonging in all the Æras.

Thus in the Beginning, *Eſau* and *Jacob* are born, *A. M.* 2359, to which Number add 1200, the Sum will be 3559; to which Number in the ſeveral Columns correſpond,

Before the Chriſtian Æra	—	—	—	—	677 + 1200 = 1877
Of the Julian Period	—	—	—	—	4037 — 1200 = 2837
Of the Sabbathick Week, Year	—	—	—	—	4
Of the Jubilees	—	—	—	—	17
Of the 25th Olympiad, Year	—	—	—	—	4
Of the <i>Urbs Condita</i>	—	—	—	—	77
Of <i>Nabonaſſar</i>	—	—	—	—	71

But ſince the reſt were not begun at the Birth of *Eſau* and *Jacob*, by the Addition and Subtraction of the 1200 Years, we can here only gain the Year before the Chriſtian Æra = 1877, and the Year of the Julian Period = 2837, which are the true Numbers correſponding to *A. M.* 2359.

Thus alſo at the End, the Council of *Trent* began *A. D.* 1545; from which Number ſubtract 600, which will then be no more than 945; to which Number in the ſeveral Columns correſpond,

Of <i>Daniel's</i> 2300 Years	—	—	—	—	1482 + 600 = 2082
Of the Julian Period	—	—	—	—	5658 + 600 = 6258
Of the Deſtruction of <i>Jeruſalem</i>	—	—	—	—	876 + 600 = 1476
Of the ten Kingdoms	—	—	—	—	469 + 600 = 1069
Of the Popes	—	—	—	—	340 + 600 = 940
Of the <i>Hegira</i>	—	—	—	—	324 + 600 = 924
Of the Emperors	—	—	—	—	145 + 600 = 745
Of the <i>A. M.</i>	—	—	—	—	5180 + 600 = 5780

By adding to every one of the *firſt* Series of Numbers 600, as before ſubtracted, we gain the *ſecond* Series of Numbers ſet over-againſt them, which are the true Numbers correſponding to *A. D.* 1545.

# THE APPENDIX TO THE CHRONOLOGICAL TABLES, from A. D. 1500, to A. D. 1766.

N. B. **T**HIS Chronology, as is already said, is an Epitome of the *Chronological Indexes* to my *Sacred Histories of the Old and New Testament*, so far as they reach, only with the necessary Correction of the A. M. by deducting 249 Years; of which see the *Sacred History* itself at A. D. 1. As also with the two most important additional Intervals of 2300 Years, from the first of *Darius the Mede*, A. 538, till 1764, and from the *Fall*, A. M. 7, to the Rise of the compleat Number of the *Ten Antichristian Kingdoms*, upon the Dissolution of the *Roman Empire*, A. D. 476, and this as parted into two equal Portions of 2352 Years apiece, by the Births of *Esau* and *Jacob*, A. M. 2359. See 4 *Esd.* vi. 7, 8, 9, 10. with *Recogn.* iii. 61. It may also assure us before-hand of the Approach of the Restoration of the *Jews* by A. D. 1766, 6000 Years from the Creation.

It is also to be noted, that I justly stile this Chronology the *Ascertaining* of the Accounts of Ancient Times; which have been hitherto so *uncertain*, that of the Years pitch'd upon by the Learned from the *Creation*, the largest is more than 1700 longer than the shortest. See *Dissert.* IV before my *Josephus*, pag. 95. While we see here, that Providence has most happily provided us with no fewer than XII several large and certain *Sacred Chronological Characters*, to secure exactly the Duration of the several Intervals, where the particular Numbers, in our present Copies of the Bible, were most liable to Uncertainty. See of them at the End of my *Chronological Index of the Old Testament*.

As to the Chronology after the Days of *Constantine*, with which *Constantine* my *Sacred History* ends, both that which the Christians have given us, according to our *Anno Domini*, and that which the *Mohammedans* have given us, according to their *Hegira*, there is hardly the least Difference among them in Points of any Consequence.

As to the *Remarkable Events*, they are generally taken from my own *Sacred History*, so far as it goes, and after it, usually from *Calvisius* in other affairs; but principally from Prince *Cantemir*, as to the *Turkish History*.
